From the Vice Chancellor for MU Operations

To: Campus Community

From: Gary L. Ward

Besides providing a quality education to the leaders of tomorrow, safety is our No. 1 priority at Mizzou. It is important that we foster a community where everyone feels safe and welcome.

A truly safe campus can only be achieved through the cooperation of everyone. This publication contains information about campus safety measures and reports statistics about crime in our university community. It also describes our efforts to combat alcohol and drug abuse.

The University of Missouri has made great strides in the previous year to educate students, faculty and staff on safety measures and improve the Mizzou experience for everyone. Please take the time to read it and help foster a more caring and safe environment.

Sincerely,

Gary L. Ward
Vice Chancellor for Operations
Interim Vice Chancellor of Student Affairs

From the Chief of Police

ANNUAL SECURITY REPORT

PREPARATION OF THE ANNUAL SECURITY REPORT AND DISCLOSURE OF CRIME STATISTICS

The procedures for preparing the annual disclosure of crime statistics include reporting statistics to the University community obtained from the following sources: MUPD, Columbia Police Department, Boone County Sheriff's Department, Office of Civil Rights & Title IX, Residential Life, Office of Student Conduct, and information provided by campus security authorities.

A written request for statistical information is made on an annual basis. The University compiles this information in the University's Annual Fire Safety and Security Report (AFSSR), which is published by MUPD. MUPD submits the annual crime statistics published in this report to the Department of Education (ED). The statistical information gathered by the Department of Education is available to the public through the ED website.

This report contains three years of crime statistics related to incidents that occurred on the University Campus; in certain Off-Campus buildings or property owned or controlled by the University of Missouri; and on public property immediately adjacent to and accessible to the Campus. This report also includes institutional policies concerning campus security, such as policies regarding sexual assault, alcohol and other drugs.

The University distributes a notice of the availability of this Annual Fire Safety and Security Report by October 1 of each year to every member of the University community that has an email account assigned by the University of Missouri. A postcard is sent to every student, faculty or staff that does not have an assigned MU email. The notice includes a brief summary of the contents of the Annual Security Report, the address for MUPD and where the Annual Security Reports can be found online. Anyone, including prospective students and employees, may obtain a paper copy of this report by contacting Kevin Rodgers at 573-882-2187 or by visiting http://mupolice.missouri.edu/Clery_Report/2017.pdf

REPORTING CRIMES AND OTHER EMERGENCIES

Reporting to MU Police

MU students, faculty, staff and visitors are encouraged to accurately and promptly report all crimes, to the University of Missouri Police Department or appropriate local law enforcement when the victim of a crime elects to, or is unable to, make such a report. To report a crime or an emergency on the MU Campus, call MUPD at 573-882-7201 or “911”. Crimes should be reported to MUPD for purposes of assessing the crime for distributing a potential timely warning – crime alert or emergency notification and for disclosure in the annual crime statistics.

Communications Officers are available at MUPD 24 hours a day to answer your call. In response to a call, MUPD Communications will generally dispatch an officer to the requested location of the caller to file an incident report. In certain circumstances, the caller may be requested to respond to MUPD to meet an officer or the officer may be able to take the required information over the phone. A police officer will gather the proper information, begin an investigation, and complete a written report. If appropriate, an investigator may be contacted to assist. If assistance is required from the Columbia Police, Boone County Sheriff's Department or Columbia Fire Department, MUPD will contact the appropriate unit. If it is determined the incident occurred outside of the jurisdiction of MUPD, the caller will be assisted in contacting the appropriate local law enforcement agency. If a sexual assault or rape should occur, staff on the scene, including MUPD, will offer the victim a wide variety of services. Incident reports may be forwarded to Student Conduct or Office for Civil Rights & Title IX for review.

Reporting to Other Campus Security Authorities

While the University strongly encourages community members to immediately report all crimes and other emergencies directly to the MU Police at (573) 882-7201 or 911, MUPD also recognizes that some may prefer to report to other individuals or University offices. The Clery Act recognizes certain University officials and offices as "Campus Security Authorities (CSAs)." The Act defines these individuals as an

- a) University Police
- b) Non-police personnel responsible for on-campus security.
- c) Official of an institution who has significant responsibility for student and campus activities, including but not limited to, student housing, student discipline and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.
- d) Any individual or organization specified in a statement of the University's security policies as a place to report criminal offenses.

Outside of the police department, these individuals generally meet the criteria for being a campus security authority.

- Dean of Students
- Director of Athletics and All Athletic Coaches
- Faculty Advisor to a Student Organization
- Residence Hall Coordinator, Assistant or Advisor
- Coordinator of Greek Affairs

- An Ombudsperson (including student ombudspersons)
- Director of Campus Health or Counseling Center
- Victim Advocates
- Members of a Sexual Assault Response Team

The function of a campus security authority is to report to MUPD or any of the below listed offices any crime report information they receive. CSA's are responsible for reporting allegations of Clery Act crimes that are reported to them in their capacity as a CSA. CSA's are not responsible for investigating or reporting incidents that they overhear students talking about in a hallway conversation; that a classmate or student mentions during an in-class discussion; that a victim mentions during a speech, workshop, or any other form of group presentation; or that a CSA otherwise learns about in an indirect manner.

While the University has identified several individual CSA's in the above category, we officially designate the following offices as places where University community members should report crimes:

Official	Campus Address	Phone Number
University of Missouri Police Department	901 Virginia Ave.	(573) 882-7201
Office for Civil Rights & Title IX	202 Jesse Hall and 145 Heinkel Building	573-882-3880
Human Resources	1095 Virginia Ave.	573-882-7976
Office of Student Conduct	2500 MU Student Center	(573) 882-5543
MU Residential Life	0780 Defoe-Graham Hall 901 Hitt Street	573-882-7275
Senior Deputy Athletics Director	Mizzou Arena 1 Champions Drive, Suite 200	573-884-6428
Dean of Students	2202 Student Center	573-882-5397

Daily Crime Log

MUPD maintains a Daily Crime Log of all crimes reported to them. The log identifies the nature, general location, date and time reported, date and time occurred and disposition. The Daily Crime Log for the most current 60 days is available for viewing in the lobby of MUPD at 901 Virginia Avenue, Columbia MO, 65211. Any portion of the Daily Crime Log that is older than 60 days will be made available within two business days of a public request.

Emergency Phones

The University has installed more than 217 emergency phones throughout the University of Missouri campus. Phones are located in public areas of buildings including parking garages, elevators, residence hall complexes, administration buildings, and also numerous outdoor locations. Emergency phones provide direct voice communications to the University Police Communications Center.

Limited Voluntary Confidential Reporting Procedures

MUPD encourages anyone who is the victim or witness to any crime to promptly report the incident to the police. Because police reports are public records under state law, MUPD cannot hold reports of crime in confidence.

The one exception to this is sex offense reports. Pursuant to Revised Missouri Statutes 610.100, a victim of RSMO Chapter 566 (Sex Offenses) may request that his or her identity be kept confidential until a charge relating to such incident is filed. With your permission, MUPD can file a report on the details of a sexual assault without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the University can keep an accurate record of the number of incidents involving students, employees and visitors; determine where there is a pattern of crime with regard to a particular location, method, or assailant; and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for the institution.

Confidential reports for purposes of inclusion in the annual disclosure of crime statistics can generally be made through the [Office for Civil Rights and Title IX](#).

Anonymous reports are not the same as confidential reporting. If you are interested in reporting a crime anonymously, you can utilize the [University Police's Silent Witness](#) program. We do not attempt to trace the origin of the person who submits this form, unless such is deemed necessary for public safety. Persons may also report crimes through [Crime Stoppers](#) at (573) 875-TIPS (8477).

Anyone may call the University Police at 573-882-7201 to report concerning information.

Pastoral and Professional Counselors

According to the Clery Act, pastoral and professional counselors who are appropriately credentialed and hired by the University of Missouri to serve in a counseling role are not considered Campus Security Authorities when they are acting in the counseling role. As a matter of policy, the University encourages pastoral and professional counselors to notify those whom they are counseling of the limited voluntary confidential reporting procedures available to them for sexual assault reports.

Pastoral Counselor: An employee of an institution, who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Professional Counselor: An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community, and who is functioning within the scope of his or her license or certification.

About the University of Missouri Police Department

Role and Authority

The University of Missouri Police Department (MUPD) is a professionally accredited police department. MUPD achieved accreditation through the Commission on Accreditation for Law Enforcement Agencies (CALEA) and The International Association of Campus Law Enforcement Administrators. The University of Missouri Police Department consists of more than 80 employees including sworn police officers commissioned under Missouri State Statutes 172.350 & 172.355.

MUPD officers have the authority to enforce MO State Laws, City of Columbia Ordinances and University of Missouri Policies. MUPD officers are authorized under Missouri State Statutes to make arrests within the State of Missouri. MU Police Officers also hold City of Columbia police commissions under Municipal Code Sec. 21-18.1 and are sworn deputies of the Boone County Sheriff's Department.

The jurisdiction of MUPD includes property that is owned, leased or controlled by MU. MUPD officers do have concurrent jurisdiction on city streets running through or adjacent to the campus.

The department also employs unarmed security officers and community service officers. The community service officers and security officers patrol areas on-campus frequented by students and do not have powers of arrest.

The MU Police Department is the primary responder to all calls for service, emergency and otherwise, on the University of Missouri Campus. The department operates twenty-four hours per day, seven days per week to provide citizens with law enforcement services.

Mission Statement: "The University of Missouri Police Department will strive to ensure a peaceful quality of life, establish partnership with the community and support a safe learning environment"

Safety, Our Number One Priority

MU takes great pride in the community and has many advantages for students and employees. This community is a great place to live, learn, work and study, however, this does not mean that the campus community is immune from all of the other unfortunate circumstances that arise in other communities. With that in mind, MU has taken progressive measures to create and maintain a reasonably safe environment on campus.

Although the University is progressive with its policies, programs and education, it is up to each one of us to live with a sense of awareness and use reasonable judgement when living, working or visiting MU.

University of Missouri Main Campus Patrol Jurisdiction

Working Relationship with Local, State, and Federal Law Enforcement Agencies

The University Police maintains a cooperative relationship with the Missouri State Highway Patrol, Columbia Police Department, Boone County Sheriff's Department, Federal Bureau of Investigation (FBI), and other surrounding police agencies. This includes intraoperative radio capability, training programs, special events coordination, investigation of serious incidents and the shared 911 Center. The Columbia Police Department and Boone County Sheriff's Department have arrest authority on-campus as well, although they normally do not exercise this power within University controlled buildings and MU On-Campus Student Housing without notifying or seeking the assistance of the University of Missouri Police Department. Additionally, MUPD often calls on the Columbia City Police, Boone County Sheriff's Department and the Missouri State Highway Patrol for assistance with large-scale events on-campus. During these events Officers, Deputies and State Troopers from all agencies have full arrest powers.

The University of Missouri Police Department participates in Mutual Aid Agreements that authorizes police officers and supervisors of the participating agencies to request mutual aid for incidents based upon a reasonable belief that such aid will enhance the public's and/or officer safety and efficiency. Agencies participating in these Agreements include

the Columbia Police Department, Boone County Sheriff's Department, and Veterans Administration Police. The mutual aid agreement does not apply to the investigation of most criminal cases, as MUPD provides the full range of police services. A MUPD officer is assigned to the Boone County Cyber Crimes Task Force. This officer serves as a forensic analyst investigating cyber-crimes and making arrests in those cases, on or off-campus. A MUPD Supervisor serves on the Mid-Missouri Bomb Squad as a Commander of the unit handling incidents both on or off-campus. Another MUPD Supervisor serves on the FBI Joint Terrorism Task Force. MUPD has one K9 (Brass) certified in explosive detection. When requested, Brass and his handler will assist local law enforcement with investigating suspicious packages. The Missouri State Statutes of 172.350 & 172.355 allows the department to provide assistance to, or request assistance from, the three additional University of Missouri affiliated police departments in Rolla MO, Kansas City MO and St. Louis MO. When assistance has been formally requested, the assisting officers have arrest authority.

Crimes Involving Student Organizations at Non Campus Locations

The University of Missouri has officially recognized student organizations that have non-campus housing facilities. These non-campus housing facilities fall under the jurisdiction of the Columbia Police Department. If CPD is called by a citizen to respond to one of these locations they may or may not notify MUPD to respond with them or to notify MUPD of the situation after the incident has been resolved. CPD is not required to notify or involve MUPD when they respond to any of these locations but may do so out of courtesy.

The University of Missouri expects all recognized student organizations to abide by federal, state, and local laws, and University regulations. The University will generally be limited to conduct which occurs on the University of Missouri premises or at University-sponsored or University-supervised functions. However, the University may take appropriate action, including, but not limited to the imposition of sanctions under Sections [200.020](#) and [200.025](#) of the Collected Rules and Regulations as well as the Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education/Employment Policy [600.020](#).

TIMELY WARNINGS – CRIME ALERTS

As an institution covered by the Clery Act, the University must send timely warnings – crime alerts on Clery Act crimes occurring in its Clery geography that are reported to MUPD, Campus Security Authorities or local police agencies, and considered by the University to represent a serious or ongoing threat to students and employees. In the event of a Clery Act crime that may pose a serious or ongoing threat to students, faculty, and staff, the University of Missouri Police Department (MUPD) will issue a "Crime Alert" to students and employees in a manner that is timely and that withholds the names of victims as confidential. The purpose of a Crime Alert is to

notify the campus community of the incident and to provide information that may enable community members to better protect themselves from similar incidents.

MUPD will issue a timely warning whenever the following criteria are met: 1) a Clery Act crime is reported; 2) the crime occurred in a Clery-reportable location; 3) the perpetrator has not been apprehended; and 4) there is a serious or ongoing threat to the MU community because of the crime.

The University may issue a Crime Alert when a Clery Act crime has not occurred but circumstances of a non-Clery Act crime may pose a serious or ongoing threat to members of the campus community. For example, a Crime Alert may be issued if there is a pattern of crimes against persons or property that are not a Clery Act Crime. The University may also issue a Crime Alert for off-campus incidents if the crime occurred in a location used and frequented by the campus community.

The MUPD Chief of Police and/or designee is responsible for making the decision to issue a Crime Alert. The decision to issue a Crime Alert shall be made on a case-by-case basis in light of all the facts surrounding a crime.

Crime Alerts are generally issued via email. All campus community members who have a valid email address issued by the University of Missouri – Columbia will be designated through the University's email system to receive the Crime Alert.

Content of a Crime Alert

The following information is typically included in a crime alert if available:

- i. A statement of the incident, including the nature and severity of the threat and the persons or locations that might be affected.
- ii. Any connection to a previous incident(s).
- iii. Physical description and/or composite drawing of the suspect.
- iv. Date and time warning was released.
- v. Appropriate safety tips.

When issuing a crime alert, some specific information may be withheld if there is a risk of compromising law enforcement efforts to investigate and/or solve the crime.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

Emergency Management at MU

The University of Missouri Police Department, in conjunction with Environmental Health and Safety is responsible for the MU Emergency Management Plan (EMP). The EMP is an all-hazards disaster response and emergency management plan that complies with FEMA guidelines for Higher Education. The Emergency Management Plan provides the

framework to structure the response and resources of MU academic and administrative community to any emergency affecting the University of Missouri. The University of Missouri Police Department activates the EMP when an emergency affecting MU reaches proportions that cannot be handled by established measures. This emergency may be sudden and unforeseen, or there may be varying periods of warning. The University of Missouri intends the EMP to be sufficiently flexible to accommodate contingencies of all types, magnitudes, and durations.

Our priorities are:

- Life safety, infrastructure integrity, and environmental protection during an emergency.
- Coordination with university departments to write, maintain, test, and exercise the EMP.
- Cooperation, Integration, and Mutual Aid with local, state and federal planning, response, and public safety agencies and their CEMPs.

A summary of the University's emergency response procedures is located at [MU Alert](#). Included at this website is detailed information regarding the University's emergency notification policy, including how to enroll in the emergency notification system to ensure you receive emergency notices on email, University and cell phones.

Emergency Notification

Drills, Exercises and Training

The University of Missouri is committed to ensuring the campus community receives timely, accurate, and useful information in the event of a significant emergency or dangerous situation on campus or in the local area that poses an immediate threat to the health and safety of campus community members. MU tests the emergency notification system components once every term as well as during the state's March Tornado Drill. The University uses a tiered emergency notification system that uses Rave Mobile Alert, Alertus Beacons and desktop notification. The MU Alert text messaging system is an emergency notification system available to students and staff at MU that "opted in" to the emergency alert system. Alerts sent are simulcast to the University community via our [MU Alert](#), the University Facebook page, MUPD Twitter, e-mail accounts and cell phone text.

The University conducts University-wide bi-annual tests of the system during the fall and spring semesters. These tests may be announced or unannounced. These exercises may include tabletop drills, emergency operations center exercises, or full-scale emergency response exercises. MUPD and Environmental Health and Safety develops exercise scenarios, schedules and coordinates the events with local, state, and federal response agencies as well as stakeholders. During 2016, a test of the emergency notification occurred on March 17, 2016 and September 14, 2016.

In conjunction with at least one emergency management exercise each year, the University will notify the community of the exercise and remind the community of the information included in the University's publicly available information regarding emergency response and evacuation procedures. The University community will be notified of this exercise through the mass email system. All community members with a valid MU email will be designated to receive this notification. In addition, the University will notify local news media of the planned exercise. The University conducts after-action reviews of all emergency management exercises documenting a description of the exercise, the date, the time, and whether it was announced or unannounced.

In addition to the above procedures the City of Columbia conducts monthly tests of the tornado warning sirens. Several of these sirens are located on and adjacent to MU and can be heard in exterior areas of the campus as well as some interior locations. During these monthly siren tests, MU does not activate their emergency notification system.

Procedures Used to Notify the Campus Community

In the event of a situation that poses an immediate threat to members of the campus community, MU will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of emergency notification to all or a segment of the campus community. These methods of communication include the mass text notification system MU Alert, the University's e-mail system, Alertus beacons, desktop notification within a building and public address system on police vehicles. The University will post updates during a critical incident on the MU Alert homepage. If the situation warrants, the University will establish a telephone call-in center to communicate with the University community during an emergency situation.

Messages may direct individuals to evacuate, shelter in place, stay away from an area or contain other information pertinent to the situation.

In the event of a weather emergency such as a tornado, The National Weather Service will provide guidance to the Boone County Emergency Management Office. Tornado warning sirens will be activated throughout the City of Columbia, including the University of Missouri Campus. When a tornado warning is issued within Boone County, the University of Missouri emergency notification system automatically activates sending communication throughout the Rave Mobile Alert, Alertus Beacons and desktop notification.

Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System

Generally, The University of Missouri Police Department will be responsible for confirming the existence of a significant emergency or dangerous situation. In certain circumstances, other first responders such as Fire Personnel, Environmental Health & Safety, Public Health Officials or Campus Facilities/Maintenance Personnel will assist MUPD with confirming a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff exists on campus.

If a significant emergency or dangerous situation is confirmed, a MUPD Supervisor will notify MUPD Communications to immediately activate the emergency notification system.

If, in the professional judgment of first responders, issuing a notification potentially compromises efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may elect to delay issuing an emergency notification. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community.

Determining the Appropriate Segment or Segments of the Campus Community to Receive an Emergency Notification

The MU Police and/or local first responders on the scene of a critical incident or dangerous situation will assist those preparing the emergency notification with determining what segment or segments of the University community should receive the notification. If the emergency affects a significant portion of the entire campus, University officials will distribute the notification to the entire campus community. However, if appropriate to a specific incident, the MU Alertus system does have the capability to activate Alertus beacons and desktop notifications to campus community members in the immediate area of the dangerous situation (i.e. a specific building or adjacent buildings.) In this instance, University officials will continue to monitor the situation and may send subsequent notifications to a wider group of community members.

Determining the Contents of the Emergency Notification

The University of Missouri Police leadership will determine the contents of the notification based on each situation. MUPD has developed a wide range of template messages addressing several different emergency situations. The individual authorizing the alert will select the template message most appropriate to the ongoing situation and modify it to address the specifics of the present incident. In situations where there are no pre-determined template messages in the system, the individual authorizing the alert will develop the most succinct message to convey the appropriate information to the community. The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.

Procedures for Disseminating Emergency Information to the Greater Community

The University does not have a system that allows the greater community to “opt-in” to the MU Alert system or to receive e-mail messages.

In the event of an emergency, the greater community can obtain information through the MU Alert Webpage, local and national media.

Enrolling in the University’s Emergency Notification System

The University encourage members of the campus community to enroll in the [MU Alert System](#). University community members should regularly update their information at the same site.

SECURITY OF and ACCESS TO UNIVERSITY FACILITIES

Academic and Administrative Buildings

The University of Missouri Campus is part of the City of Columbia and, as such, is open to the public. The academic and administrative buildings are open to the public, at a minimum, during normal business hours. Most facilities have individual hours, and the hours may vary at different times of the year. Access to some of these buildings is also controlled by card access after normal business hours, and all of these buildings have varied levels of access. Academic and administrative buildings do not have a MUPD

Officer assigned to them. However, MUPD officers patrol the academic and administrative buildings on a regular basis. For information about the access protocol for a specific building, see the building manager, a department head, or contact MUPD at 573-882-7201.

Residence Halls

All University residence halls have a 24-hour security program that includes many security measures.

- Exterior residence hall doors, except those that lead past desks, are locked at all times. Students may enter locked doors of their hall using their ID card.
- The exterior doors that lead past desks lock electronically when the desk closes (typically 11:00 PM) and the hall is then closed to the public.
- Security devices are installed on ground floor windows and room doors have dead bolt locks and door viewers.

Residents can protect themselves and their property by responsible decisions. Unescorted persons should not be given access to residence halls after hours; residents can access their own halls after hours by "swiping" their student id card through the card reader. Doors should not be propped open at any time. The names and telephone numbers and locations of on-call student staff are posted inside and on main exterior entrances of the residence halls; each resident should locate this information in advance of an emergency. Wallet cards with on-call contact information are available from the residence hall information desk. Keeping every room door locked at all times will deter crime, as almost every theft in a residence hall is a result of an unsecured room or unattended belongings. Every security measure taken by the residence hall staff depends on the responsible actions of each resident for its effectiveness.

Residence Halls do not have a MUPD Officer assigned to them. MUPD officers regularly patrol the exterior and lobby area of Residence Halls.

Residential Life Staff enforce security measures in the halls and work with residents to achieve a community respectful of individual and group rights and responsibilities. Residential Life Staff, along with MUPD Officers also conduct periodic educational sessions on prevention of various crimes, including sexual assault and acquaintance rape.

Maintenance of Campus Facilities

Facilities and landscaping are maintained in a manner that minimizes hazardous conditions. MUPD regularly patrols throughout campus and reports malfunctioning lights or other unsafe physical conditions to Facilities Management for correction.

Representatives from MU Police and Missouri Students Association conduct a survey of University property at least once a year to evaluate and identify potential safety concerns on campus.

We encourage community members to promptly report any security concern, including concerns about locking mechanism, lighting, or landscaping to MUPD or Facilities Management at 573-882-3091.

MU's RESPONSE TO SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE AND STALKING

The University of Missouri is committed to providing a safe and non-discriminatory learning and working environment, and in compliance with federal law has adopted policies and procedures to prevent and respond to incidents of sexual violence; including sexual assault, sexual misconduct, sexual exploitation, sexual harassment, domestic violence, dating violence and stalking. These guidelines apply to all students, faculty, staff, contractors and visitors. Conduct included under this policy is prohibited regardless of the sex, sexual orientation and/or gender identity/expression of the complainant or respondent.

MU does not tolerate sexual or gender violence and prohibits the crimes of sexual assault, dating violence, domestic violence and stalking as those terms are defined for purposes of the Clery Act. All forms of sexual violence, including the acts described and defined in this Report violate the University of Missouri policy on Sexual Discrimination, Sexual Harassment and Sexual Misconduct, as well as the Student Code of Conduct, federal and state laws. Violations of these [policies](#) are subject to disciplinary sanctions.

The University conducts ongoing awareness and training programs to prevent sexual assault, domestic violence, dating violence, and stalking. It is the responsibility of every member of the University community to foster an environment free of Prohibited Conduct. All members of the University community are encouraged to be responsible for their own security and the security of others and to take reasonable and prudent actions to prevent or stop an act of prohibited conduct. The University will support and assist community members who take such actions.

Anyone in a dating relationship where violence occurs would be covered under the "domestic victim", "Family" or "household member" as defined in RSMO 565.002 and 455.010. All incidents involving a dating relationship where violence occurs will be counted for Clery reporting purposes as domestic violence.

Stalking:

The term "disturbs" shall mean to engage in a course of conduct directed at a specific person that serves no legitimate purpose and that would cause a reasonable person under the circumstances to be frightened, intimidated, or emotionally distressed.

The term “course of conduct” is a pattern of conduct composed of two or more acts, which may include communication by any means, over a period of time, however short, evidencing a continuity of purpose. Constitutionally protected activity is not included within the meaning of course of conduct. Such constitutionally protected activity includes picketing or other organized protests.

565.225. A person commits the offense of stalking in the first degree if he or she purposely, through his or her course of conduct, disturbs or follows with the intent of disturbing another person and:

The threat shall be against the life of, or a threat to cause physical injury to, or the kidnapping of the person, the person's family or household members, or the person's domestic animals or livestock as defined in section 276.606 kept at such person's residence or on such person's property; or

Consent – Defined by Missouri Revised Statutes Section 556.061 (14).

"Consent": consent or lack of consent may be expressed or implied. Assent does not constitute consent if:

(a) It is given by a person who lacks the mental capacity to authorize the conduct charged to constitute the offense and such mental incapacity is manifest or known to the actor; or

(b) It is given by a person who by reason of youth, mental disease or defect, intoxication, a drug-induced state, or any other reason is manifestly unable or known by the actor to be unable to make a reasonable judgment as to the nature or harmfulness of the conduct charged to constitute the offense; or

(c) It is induced by force, duress or deception.

Consent – Defined by the University of Missouri

Consent to sexual activity is knowing and voluntary. Consent to sexual activity requires of all involved persons a conscious and voluntary agreement to engage in sexual activity. Each person engaged in the sexual activity must have met the legal age of consent. It is the responsibility of each person to ensure they have the consent of all others engaged in the sexual activity. Consent must be obtained at the time of the specific activity and can be withdrawn at any time. Consent, lack of consent or withdrawal of consent may be communicated by words or non-verbal acts.

Someone who is incapacitated cannot consent. Silence or absence of resistance does not establish consent. The existence of a dating relationship or past sexual relations between the Parties involved should never by itself be assumed to be an indicator of consent. Further, consent to one form of sexual activity does not imply consent to other forms of sexual activity. Consent to engage in sexual activity with one person does not imply consent to engage in sexual activity with another. Coercion and force, or threat of either, invalidates consent.

This definition of consent is used during an alleged violation and investigation of sexual assault, sex discrimination, sexual harassment and sexual misconduct per MU Policy 600.020 – Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education/Employment Policy. For Clery Act reporting purposes, all sexual assaults that are reported to a CSA are included in the statistics submitted to the Department of Education regardless of the issue of consent.

REPORTING AN INCIDENT OF SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE OR STALKING

There are a number of options available to a victim when an incident of sexual assault, domestic violence, dating violence or stalking occurs. MU students, faculty, staff and visitors are encouraged to accurately and promptly report all crimes, to the University of Missouri Police Department. To report a crime or an emergency on the MU Campus, call MUPD at 573-882-7201 or “911”. Police have legal authority to seek and execute search warrants, collect forensic evidence that may have been left at the scene or other relevant locations, and to make an arrest when supported by probable cause to believe a crime has been committed. Police are also able to assist MU community members in seeking emergency protective orders. Reports may also be made to the Office of Civil Rights and Title IX. The Office for Civil Rights & Title IX can be reached at 202 Jesse Hall and 145 Heinkel Building, Columbia, MO 65211, (573) 882-3880.

The MU Police or a local police agency can also be reached by calling “911” or one of the other numbers listed below. Individuals seeking medical attention at University Hospital or any of the other local hospitals can ask that police be called on their behalf.

Incidents that occur on-campus fall within the jurisdiction of the MU Police Department. Incidents that occur off-campus fall within the jurisdiction of the City of Columbia Police Department or the Boone County Sheriff's Department. Individuals will be directed to the appropriate police department if they call "911."

MU Police 573-882-7201

Columbia Police 573-442-6131

Boone Co. Sheriff's Dept. 573-442-6131

If a victim chooses, they will be assisted with notifying the proper law enforcement jurisdiction where the sexual assault, domestic violence, dating violence or stalking occurred. If the victim files a report with the Office of Civil Rights & Title IX and wishes to also file a police report a member of that office will assist with notifying MUPD or another local law enforcement agency. If a victim files a report with MUPD which then determines the incident occurred off campus and not within their jurisdiction, a MUPD Officer will escort the individual to the local law enforcement agency or call for a local officer to respond to MUPD to file the report.

Students, employees, volunteers and visitors of the university who have experienced any form of sex discrimination, including sexual harassment or sexual misconduct, are encouraged to report the incident promptly to the Office for Civil Rights & Title IX. This Office will provide complainants with written statements about existing counseling, health, mental health, victim advocacy and other resources available as well as a statement of the victim's rights and the institution's responsibilities. However, university policy does not require individuals to report their own victimization. Anonymous reports are accepted on the Office for Civil Rights & Title IX website. Additionally, should an

individual wish, confidential support resources are available including the Relationship and Sexual Violence Prevention (RSVP) Center, the Counseling Center, and Student Health.

Any employee of the University who becomes aware of sex discrimination including sexual harassment, sexual misconduct, stalking on the basis of sex, dating/intimate partner violence or sexual exploitation is a Mandated Reporter, regardless of whether the recipient of the behavior is a student, employee, volunteer or visitor of the University. Exception: Employees with a legal obligation or privilege of confidentiality (including health care providers, counselors, lawyers, and their associated staff) are not considered Mandated Reporters and are not required to report when the information is learned in the course of a confidential communication.

Once a report is submitted, and depending on the detail of the information provided, the institution will take reasonable steps to investigate the matter, stop the harassment and prevent its recurrence and remedy its effects. An [on-line report](#) is available from the Office for Civil Rights & Title IX.

Privacy of the parties is a top priority to the University. However, sometimes, limited information must be disclosed to fully investigate a report. The University will weigh the impacted party's request for confidentiality in determining whether or how to proceed with an investigation. In some instances, to protect the safety of the Mizzou community, an investigation may still go forward even if the impacted party refuses to participate with the investigation. The University will complete all publicly available record keeping, including Clery Act reporting and disclosures, without the inclusion of personally identifiable information.

Victims of sexual assault, domestic violence, dating violence and stalking also have the option of declining all offers of assistance in notifying local authorities.

Specific Mandated Reporting Information

In Missouri, if you have "reasonable cause to believe" a child is being abused or neglected you must report that suspicion to the state Department of Children's Services or to local law enforcement, and are required by law to report it immediately.

Mandated reporters are physicians, nurses, social workers, day care staff, teachers, ministers and law enforcement officials. Mandated reporters also include any other person with responsibility for the care of children. Reporting is required by state statute for abuse/neglect, when there is reasonable cause to suspect a child has been or is being abused/neglected, or if a child is observed as being subjected to such conditions or circumstances.

WRITTEN NOTICE OF RIGHTS AND OPTIONS

When a student or employee reports they have been a victim of dating violence, domestic violence, sexual assault or stalking, whether the offense occurred on or off campus, they will be provided with a written explanation of the student or employee's rights and options. [The Office for Civil Rights & Title IX](#) will provide complainants written notification of their [rights](#).

This document provides:

- The procedures victims should follow if a crime of dating violence, domestic violence, sexual assault or stalking has occurred;
- Information about how MU will protect the confidentiality of victims and other necessary parties;
- A statement that MU will provide written notification to students and employees about victim services within MU and in the community;
- A statement regarding MU's provisions about options for, available assistance in, and how to request accommodations and protective measures; and
- An explanation of the procedures for institutional disciplinary action

Written notification of existing resources available for victims within the institution are provided by the Office for Civil Rights & Title IX.

The RSVP (Relationship and Sexual Violence Prevention) Center and the MU Office for Civil Rights & Title IX are available to assist any student or employee free of charge and will help them consider their options and navigate through any resources or recourse they elect to pursue. A victim does not need to make a formal report to law enforcement to access these resources. Services available are counseling, health, mental health, victim advocacy, legal assistance, visa & immigration assistance, and student financial aid.

PROCEDURES VICTIMS SHOULD FOLLOW FOR DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT AND STALKING

- Get to a safe place as soon as possible! If you are in immediate danger, call 911!
- Contact a close friend or relative, if available, who can provide support and accompany the victim to the medical exam and/or police department. Advocates from the Relationship and Sexual Violence Prevention (RSVP) Center or True North can be available to the victim to provide support. More resources for victims can be located at the [RSVP](#).
- Get medical attention as soon as possible – The University Hospital Emergency Department has specially trained [Sexual Assault Nurse Examiners \(SANE\)](#) who conduct exams. SANE nurses have special training helping survivors of violence. The exam occurs in a private room away from the emergency department. For more information, contact 573-882-8091. Having a forensic exam does not require you to file a police report. Having a forensic exam will help to preserve evidence

in case a victim decides at a later time to file a police report. If you would like to file a police report at the time of the exam, assistance will be provided in contacting the appropriate jurisdiction where the sexual assault occurred. You may also report the incident to the MU Office of Civil Rights & Title IX. If you are considering a forensic exam, we ask that you:

- Do not urinate if possible. If there is concern about a drug-facilitated sexual assault, the first available urine will be collected at the clinic or emergency room.
 - Do not eat or drink.
 - Do not bathe or brush your teeth.
 - Do not smoke.
 - Bring clothes worn at the time of assault and immediately after assault, especially undergarments. Do not wash the clothes and store them in a paper bag (plastic bags prevent circulation and can destroy evidence).
 - Bring a change of clothing.
 - Bring a support person.
-
- Contact the police – Sexual assault is a crime; it is vital to report it. It is important to remember reporting a crime is not the same as prosecuting the crime. The decision to prosecute may be made at another time. Final decision to prosecute is determined by the Prosecuting Attorney. The MU Police are located at 901 Virginia Avenue, Columbia MO 65211, 573-882-7201. Email: mupolice@missouri.edu.
 - Reports can be made to the Office of Civil Rights and Title IX through their [online reporting](#) or in person at 202 Jesse Hall or 145 Heinkel Building, Columbia MO, 65211, 573-882-3880. Email: civilrights-titleix@missouri.edu.
 - Consider talking to a counselor – Seeing a counselor may be important in helping the victim understand his/her feelings and begin the process of recovery. You may contact MU Counseling Center, Behavioral Health at Student Health, RSVP Center, and True North for counselling assistance.
 - Evidence of stalking including any communications, such as written notes, voice mail, social media postings, or other electronic communications should be saved and not altered in any way.
 - Preserving evidence is important as it may assist in proving that the alleged criminal offense occurred or may be helpful in obtaining a protection order.

ORDERS OF PROTECTION

If a victim reports to law enforcement, including MUPD, the City of Columbia, or the Boone County Sheriff's Department they will assist them in obtaining a temporary or permanent restraining order from a criminal court. MUPD is committed to ensuring that any such order is fully upheld on all property owned or controlled by MU. The University of Missouri is also committed to protecting victims from any further harm and MU may issue an institutional no-contact order.

An order of protection can help to protect yourself or your children from someone who is abusing or harassing you. It can help set limits by requiring the abuser to stay away from you or your home. A protection order can send a strong message to the abuser letting them know that abusive behavior is not acceptable and it is illegal.

You can file an order of protection 24 hours a day against the person who is abusing you. The Boone County Circuit Clerk's Office provides orders of protection during business hours: Monday – Friday, 8am to 5pm. The Shelter offers emergency orders of protection when the Clerk's office is closed. An advocate from The Shelter is available to assist you in filling out an order of protection.

VICTIM CONFIDENTIALITY

The University of Missouri is committed to protecting the privacy of all individuals involved in the investigation and resolution of a report involving sexual assault, domestic violence, dating violence or stalking. MU is also committed to providing assistance to help students and employees make informed choices. With respect to any report under this policy, MU will make reasonable efforts to protect the privacy of participants, in accordance with applicable state and federal law, while balancing the need to gather information to assess the report and to take steps to eliminate prohibited conduct, prevent its recurrence, and remedy its effects.

Reports made to MU Officials and identifying information about the victim will be shared with a limited circle of MU Employees who “need to know” in order to assist in the assessment, investigation, and resolution of the report. All Employees who are involved with MU’s response to reports of Prohibited Conduct receive specific training and guidance about sharing and safeguarding private information in accordance with state and federal law.

The privacy of Student education records will be protected in accordance with the Family Educational Rights and Privacy Act (FERPA), as outlined in MU’s FERPA policy. The privacy of an individual’s medical and related records generally is protected by the Health Insurance Portability and Accountability Act (HIPPA).

Confidentiality exists in the context of laws that protect certain relationships, including with medical and clinical care providers (and those who provide administrative services related to the provision of medical and clinical care), mental health providers, counselors, and ordained clergy, all of who may engage in confidential communications under Missouri Law. Several offices and employees within MU fall under the guidelines of a “confidential employee.” When information is shared with a confidential employee or community professional with the same legal protections, the confidential employee (and/or such community professional) cannot reveal the information to a third party except when an applicable law or a court order requires or permits disclosure of such information. For example, information may be disclosed when (i) the individual gives written consent for its disclosure, (ii) there is a concern that the individual will likely cause serious physical harm to self or others; (iii) the information concerns conduct involving suspected abuse or neglect of a minor.

An Employees responsibility to report incidents of sex discrimination, sexual harassment, sexual misconduct, stalking on the basis of sex, dating/intimate partner violence or sexual exploitation falls under MU Policy 600.020. Under this policy every MU Employee is designated as a “Mandated Reporter.”

Pursuant to the Clery Act, MU includes statistics about certain offenses in its annual security report and provides those statistics to the United States Department of Education in a manner that does not include any personally identifying information about individuals in an incident. The Clery Act also requires MU to issue timely

warnings to the MU Community about certain crimes that have been reported and may continue to pose a serious or continuing threat to Student and Employees. Consistent with the Clery Act, MU withholds the names and other personally identifying information of Complainants when issuing timely warnings or emergency notification to the MU Community, and in the maintenance of the daily crime log. MU will also maintain as confidential any accommodation or protective measures provided to the victim, to the extent that maintaining such confidentiality would not impair the ability of the institution to provide the accommodations or protective measures.

PROGRAMS TO PREVENT SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING

The University of Missouri encourages the campus community to be responsible for their own security and the security of others. MU offers programs to prevent sexual assault, domestic violence, dating violence, and stalking. These programs are comprehensive, intentional, and integrated programming, initiatives, strategies and campaigns intended to end sexual assault, domestic violence, dating violence and stalking. These programs;

- Are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for value, effectiveness, or outcome; and
- Consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.
- Programs to prevent dating violence, domestic violence, sexual assault, and stalking include both primary prevention and awareness programs directed at incoming students and new employees and ongoing prevention and awareness campaigns directed at students and employees.

All incoming students and new employees are provided with programming and strategies intended to prevent rape, acquaintance rape, sexual assault, domestic violence, dating violence, and stalking before it occurs through the changing of social norms and other approaches. These programs include (1) statements that MU prohibits such acts; (2) the definitions of related crimes; (3) the definition of consent; (4) options for bystander intervention that may be carried out by an individual to prevent harm or intervene when there is risk of prohibited conduct against another person; (5) information about risk reduction to recognize warning signs of abusive behavior; (6) information about the procedures that MU will follow after an incident of prohibited conduct has occurred. We offer ongoing prevention and awareness campaigns throughout the year.

The University of Missouri Office for Civil Rights & Title IX and the Relationship and Sexual Violence Prevention Center are primarily responsible for sexual assault education and awareness in collaboration with many offices at the University. Together, these offices offer a variety of programming focusing on sexual and gender violence.

Primary Prevention Programs

These programming initiatives and strategies are informed by research or assessed for value effectiveness or outcome that are intended to stop sexual assault, domestic violence, dating violence and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention and seek to change behavior in social norms in healthy and safe directions.

Bystander Intervention and Risk Reduction

Bystander intervention consists of safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is risk of dating violence, domestic violence, sexual assault or stalking. Bystander intervention includes recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene.

Risk reduction means options to decrease perpetration and bystander inaction, and to increase empowerment for victims in order to promote safety and to help individuals and communities address conditions that facilitate violence.

MU's specific bystander intervention and risk reduction programs are:

- “Not Anymore” – MU is committed to creating a safe and inclusive learning environment for all students. The “Not Anymore” program provides introductory education and establishes expectations for the MU Community. This program complies with the amendments to the Violence Against Women Act and the Clery Act, as well as recommendations promulgated by the U.S. Department of Education Office of Civil Rights. “Not Anymore” is an interactive online program designed to educate students about sexual assault, relationship violence and stalking. It also provides information about consent and teaches engaged

bystander intervention techniques. All new in-coming undergraduate and graduate students are required to complete “Not Anymore.”

- [Green Dot Mizzou](#) - If any incident of violence is a red dot on our campus map, then anything anyone does to try to prevent violence is a green dot on that map. Our goal is simple: we want to see more green than red, ultimately dramatically decreasing the amount of violence that occurs in our community. “You don’t have to do everything but everyone can do something.”

Ongoing Prevention and Awareness Programs

Awareness programs are community wide or audience specific programming, initiatives and strategies that increase audience knowledge and share information and resources to prevent violence, promote safety and reduce perpetration.

Ongoing prevention and awareness campaigns means programming, initiatives, and strategies that are sustained over time and focus on increasing understanding of topics relevant to and skills for addressing dating violence, domestic violence, sexual assault, and stalking, using a range of strategies with audiences throughout MU.

- Vagina Monologues – V-Day is a global movement to stop violence against women and girls. V-Day is a catalyst that promotes creative events to increase awareness, raise money and revitalize the spirit of existing anti-violence organizations. The Vagina Monologues, a part of the V-Day movement, is a play that occurs every February at MU. The play raises awareness and funds for: True North Shelter, MU Stop the Violence Fund, STARS Survivor Fund and the L.E.A.D. Institute.
- Rape Awareness Month – Rape Awareness Month occurs in September and brings people together to acknowledge and raise awareness about the issues of rape and sexual assault.
- Relationship Violence Awareness Month – Domestic violence thrives when we are silent; but if we take a stand and work together, we can end domestic violence. Activities to promote awareness of relationship violence and domestic violence occur throughout the month of October.
- White Ribbon Campaign – The White Ribbon Campaign is a global movement of men seeking to promote healthy relationships, gender equity and a compassionate vision of masculinity. Activities to promote awareness occur during one week in November.
- Alcohol Responsibility Month – This is sponsored by the Wellness Resource Center and occurs in October. Information is provided about responsible alcohol consumption.

- [The RSVP Center Peer Educators](#) -- a peer education program composed of students who are dedicated to ending relationship and sexual violence on our campus and in our community.
- IFC Peer Educators – a peer education program composed of fraternity members who learn how to educate other fraternity members about power-based personal violence and how to stop it.
- [SHAPE](#): Sexual Health Advocates Peer Education – a peer education program focused on healthy sexual relationships, boundaries, and communication.
- [RSVP Center Programming](#) – the RSVP Center offers students, faculty, and staff a menu of panels and presentations that can be tailored to particular student organizations, groups, classes, or audiences. Some of these programs are offered along with the Office for Civil Rights & Title IX.
- [Building a Foundation: Discrimination Prevention and Title IX](#) - The University of Missouri maintains an ongoing commitment to support and promote inclusion, respect and diversity, ensuring members of the university community are educated and informed through training. Employees, student hires, and other workers within the University of Missouri System are required to successfully complete an online compliance training module, *Building a Foundation: Discrimination Prevention and Title IX*. This training is available anywhere, 24 hours a day, seven days a week and takes approximately 60 minutes to complete. Upon completion of this training module, members of the MU community will be able to:
 - Identify who is protected against discrimination and understand intent.
 - Recognize harassment in the workplace.
 - Recall who is protected against retaliation and tips to avoid retaliation.
 - Know special rules for sex-based discrimination.
 - Understand the University's reporting of sex/gender-based discrimination.
 - Understand the University's reporting of non-sex/gender-based discrimination.
 - Locate and follow the process for resolving complaints.
 - Know what to do and understand your rights if accused.

DISCIPLINARY PROCEEDINGS

The University of Missouri strictly prohibits all acts of sexual assault, domestic violence, dating violence, and stalking. In addition to facing criminal action, students, employees and other affiliates may also face disciplinary action by the University. Employees found responsible for having committed such a violation face discipline up to and including termination of employment, and students face disciplinary action up to, and including dismissal from the university. Other sanctions may include a period of suspension, No Contact Directives, or participation in workshops. The Office for Civil Rights & Title IX will handle incidents involving students and employees.

The University's disciplinary process for students and employees are designed to afford a fair, prompt, and impartial process from the initial investigation to the final result. The disciplinary process is completed within reasonably prompt timeframes designated by MU's policy, including a process that allows for the extension of timeframes for good cause with written notice to the accuser and the accused of the delay and the reason for the delay.

The disciplinary process is conducted in a manner that:

- Is consistent with the institutions policies and transparent to the accuser and accused;
- Includes timely notice of meetings at which the accuser or accused, or both may be present; and
- Provides timely and equal access to the accuser, the accused, and appropriate officials to any information that will be used during informal and formal disciplinary meetings and hearings; and
- Conducted by officials who do not have a conflict of interest or bias for or against the accuser or the accused. Officials who, at a minimum, receive annual training on the issues related to dating violence, domestic violence, sexual assault, and stalking and on how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability.

The individual accused of violating a University policy regarding sexual assault, dating and/or domestic violence or stalking is entitled to due process and will be given notice and a full opportunity to respond to allegations made against them. The individual can seek representation, may have the same opportunity as the student who reported being assaulted to have one non-participating advisor of their choice present during the proceedings, and is entitled to information about the University of Missouri's Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education/Employment Policy (CRR 600.020).

Both the respondent and the complainant shall simultaneously be informed in writing of the outcome of the proceedings, the procedures for appealing the results, and of case progression through the conduct process. Disclosure of the outcome shall be made to both parties unconditionally, simultaneously, and each shall be free to share or not share the details with any third parties. Determination of responsibility is made using the preponderance of the evidence standard (meaning that it is more likely than not that the alleged misconduct occurred).

MU will, upon written request, disclose to the alleged victim of a crime of violence or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by the institution against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the alleged victim for purposes of this paragraph.

OFFICE OF STUDENT CONDUCT

The Office of Student Conduct is responsible for upholding the Universities Standard of Conduct for the campus community, and promoting individual student growth and development. Every student at MU is expected to abide by all University of Missouri System Collected Rules and Regulations and to uphold the Standard of Conduct for the University.

Student Conduct reviews an incident that is reported to the office. The report can be sent via the Office of Student Conduct website, from MU Police or other agencies. The Student Conduct Committee hearings will follow procedures outlined in the [Collected Rules and Regulations 200.020](#). The Office of Student Conduct does not investigate incidents of sexual assault, domestic violence, dating violence or stalking.

The Office of Student Conduct can be reached at G206 MU Student Center, Columbia MO 65211 (573) 882-5543.

SEX OFFENDER REGISTRATION – Adam Walsh Child Protection and Safety Act of 2006 (42 U.S.C. 16921)

The Missouri State Highway Patrol maintains the registered sex offender database that can be found at the [MSHP Sex Offender Registry](#). The federal Campus Sex Crimes Prevention Act requires sex offenders to provide notice to each institution of higher education at which the person is employed, carries a vocation, volunteer services or is a student.

UNIVERSITY OF MISSOURI SECURITY AWARENESS PROGRAMS

In addition to the many programs offered by the University Police and other University offices, the University has established a number of policies and procedures related to ensuring a reasonably safe campus community.

At Risk Committee (Behavioral Intervention)

In order to extend our efforts on emergency preparedness and prevention, the University of Missouri has established an At Risk Committee. The objective of the committee is to put in place a structured process for evaluating potentially threatening situations that occur at MU. The multi-disciplinary team is comprised of various members with MU. Further information about this committee can be obtained from Dr. Jeff Zeilenga, Dean of Students, (573) 882-5397.

Weapons Policy

MU promotes the safety of the community by the reasonable regulation of weapons, fireworks and explosives. MU prohibits the possession, storage or use of any weapon by any University student, employee or visitor, except a law enforcement officer, on University owned or controlled property. The MU Police Department provides storage facilities for the personal weapons of members of the University community.

Except as approved by authorized University personnel or otherwise authorized by applicable University policies and procedures, the possession, storage or use of any firework or other explosive or any lethal combustible chemical or combination of chemical on University property or while attending sporting, entertainment or educational activities is prohibited.

In addition to University personnel responsible for the management or supervision of University property and activities, MU Police Officers are lawfully in charge of University property for purposes of forbidding entry upon or within, or prohibiting remaining upon or

within University property while possessing weapons or other devices, instruments, fireworks, explosives or combustible chemicals.

University personnel or students who violate the weapons policy may be subject to disciplinary action. The provisions of this policy apply regardless of whether a person has a concealed weapon permit.

CRIME PREVENTION PROGRAMS

In an effort to promote safety awareness, The University of Missouri Police Department offers a variety of programs to educate and inform students, employees, parents, and the community at large on a variety of issues. Many of these programs are presented upon request. If you or your organization would like to request a specific program, please contact the MU Crime Prevention Officer at (573)-882-7809. Many of these programs are a collaborative effort also involving The Wellness Resource Center, Relationship Sexual Violence Center, Women's Center and Human Resources.

All students and employees at MU are encouraged to be responsible for their own security and for the security of others on campus.

Programs Offered

- **Rape Aggression Defense System (RAD)**. RAD is a self-defense program designed for women only. All students, faculty, staff and the general public are welcome to enroll in this course. This 13-hour course begins with 3-4 hours of classroom that covers topics on general safety, how to make your residence more secure, travel safety, the use of weapons, what to do after an attack and much more. Following the classroom, students will learn hands-on techniques (4-5 hours). The technique portion of the class includes blocks, punches, kicks, defense against bear hugs and wrist grabs, and ground defense. The final 3 hours of the course consists of dynamic simulation exercises. Simulation gives students the opportunity to put together classroom concepts and techniques in several simulated attacks. In 2016, there were 5 classes with a total of 82 participants.
- **Advanced RAD**. The Advanced RAD class takes up where the basic class ends. Participants learn additional strikes, take-downs, enhanced ground defense, and defense against multiple attackers. Additional focus is given to the use of leverage and balance displacement to overcome size differences between students and potential attackers. The Advanced RAD class is 16 hours of training. In 2016, there was 1 class with 10 participants.
- **Combined Aerosol/Keychain Defense**. Aerosol Defense addresses the use of oleoresin capsicum (OC or pepper spray) as a tool for self-defense. Participants learn how to select pepper spray, the effects of wind and weather on aerosol defense options, the hazards of using them, and defensive techniques used in combination with aerosol defense. Keychain Defense addresses methods of carrying a defensive keychain, strikes using a defensive keychain, and a variety of defensive techniques

using both the Kubaton style keychain and the flashlight style keychain. In 2016, there was 1 class with 4 participants.

- **Resisting Aggression with Defense.** RAD for Men – This program is designed to empower men to make different decisions when confronted with aggressive behavior. This is the first step toward reducing aggression and violence for men and their loved ones. The basic program is 12 hours. Participants will learn physical self-defense techniques while also increasing awareness of aggressive behavior and implementing bystander intervention.
- **Citizen's Response to Active Threats (C.R.A.T).** This course takes a comprehensive approach to dealing with active shooter/violent intruder incidents that may occur in the workplace, school, or public settings. Participants are taught to use integrated strategies incorporating Environmental Design, Technology & Communication, Law Enforcement Response, and most importantly, ACTION by those in immediate danger because they are the REAL First Responders. This class includes a 2-hour classroom session coupled with a 2-hour practical, hands-on session. Students will learn how to react and respond to violent intruders by taking an active role in their own survival. In 2016, there were 26 non-practical classes with 549 participants. There were 8 classes involving the classroom and practical exercises with 291 participants.
- **First on Scene – Active Shooter Video Workshop.** This workshop focused on the “Surviving an Active Shooter” video produced by The University of Missouri. In the unlikely event of a threat on campus, learn what you should do to keep yourself, and others, safe. View the video here: [MU Alert Online Emergency Information Center](#). This workshop was presented 5 times with 93 participants.
- **Summer Welcome.** Every summer MU holds Summer Welcome activities for new incoming students. A specific part of those activities is a presentation to parents about the MU Police Department and crime on campus. Emphasis is placed on the amount and types of crimes that occur more frequently on campus. Theft prevention as well as alcohol and drug information is included in those presentations. Also, during these presentations a representative from the Wellness Resource Center and Relationship Sexual Violence Prevention (RSVP) Center include additional information about wellness on campus and bystander intervention relating to sexual assault, domestic violence, dating violence and stalking. There were 28 Summer Welcome presentations provided to parents with an average attendance at each session of approximately 75.
- **Security Surveys.** The MU Police Crime Prevention Officer upon request conducts security surveys of buildings to see if any security improvements may be needed. The Crime Prevention Officer conducted **19** security surveys analyzing the need for improvements to safeguard buildings or offices against unlawful entry and theft.

- **New Employee Orientation.** The MU Police in conjunction with Human Resources conducts bi-monthly new employee orientation for new MU employees. During this presentation general information is provided about the MU Police Department and the services offered. Crime statistics are discussed and tips on how to avoid being a victim are offered.
- **Alcohol Awareness.** Residential Life and the MU Police Department work collaboratively to present information about alcohol and its effects on the body. The program is typically included along with floor or hall meetings in Residence Halls. Information regarding liquor laws, DWI/Zero Tolerance, drug laws, city ordinances, and alcohol overdose is included. Fatal Vision goggles are also incorporated and often leads to a discussion of the risks of impaired driving.
- **Bicycle Registration.** Bicycle Registrations are now available online for the convenience of our students. Tables were set up at a number of locations on campus to assist with this process, including Ellis Library and the Health Sciences Library. Walk-ins at the MUPD lobby are also welcome. Hardcopy data is entered into the database, creating an entirely electronic collection of bicycle registrations.
- **Personal Safety.** Groups requesting this presentation may choose between 1 or 2 hour presentations. Topics covered include safe travel, campus safety, residence hall safety and a wide variety of other topics. Alcohol and predatory drug issues are frequently covered. This program also includes C.R.A.T. information.
- **Drug Recognition.** This program was developed in response to a request from supervisors of commercial driver's license holders to enable them to recognize when employees may be under the influence of a drug. Since that time it has been used to instruct a variety of people on the effects of drugs and the symptoms that an intoxicated person might exhibit. This program has been modified to include detection of controlled substances by Residential Life Staff. It now also includes a component on household chemicals that someone can use to become intoxicated and the possible signs and symptoms of someone using those chemicals/products.
- **Workplace Violence.** Workplace violence training is a program designed to recognize the warning signs of potentially violent behavior and different de-escalation techniques. This program attempts to show employees how different behaviors can become more dangerous over time if unchecked.
- **Campus Safety.** This program is customizable, ranging from 1-4 hours in length, for the requesting group and incorporates elements of the Personal Safety, Drug Recognition, and Workplace Violence programs as well as campus emergency planning and response to active shooter scenarios.
- **Dealing with Problem Patrons.** The training contains information on: customer service, dealing with patron problems, personal safety and security, crowd control issues, components of Verbal Judo, and recognizing when police should be contacted. This program also includes C.R.A.T. information.

- **Predatory Drugs.** This program was developed at the request of the Rape and Sexual Violence Prevention Center for training of their Peer Educators and Greek Advocates. This training discusses characteristics, signs, symptoms, effects, and detection of several common predatory drugs.
- **Community Safety.** This training contains personal safety and security, children's safety, University Police Services, property security and a specific children's component. The children's component addresses issues of strangers, bullies, 911, tricks, and passwords.

Anyone needing an escort should call MUPD at (573) 882-7201. A security officer will meet the individual and walk with them to their desired location. Security escorts are for on campus locations only.
- **Security Cameras.** Security cameras are mounted at various locations across campus. Cameras are used to enhance the safety and security of persons on campus. Further, these cameras aid MUPD in monitoring persons going to and from buildings, observing vehicular traffic patterns, investigating crimes, and apprehending perpetrators of criminal acts.
- **Tiger Line Shuttle.** [Tiger Line Shuttles](#) are available when classes are in session during fall and spring semesters only. Tiger Line buses are equipped with GPS and can be tracked in real time using the Go Mizzou smart phone app for either IOS or Android. Both [day](#) and [night](#) routes are available.

Missing Student Notification

The Clery Act requires institutions that maintain on campus housing facilities to establish a missing student notification policy and related procedures (20 USC 1092 (j) Section 488 of the Higher Education Opportunity Act of 2008).

Designation of Contact for Missing Students

When a student checks into their Residential Life assignment they have the opportunity to specify an individual other than their emergency contact that should be contacted in the event that the student is confirmed as missing. This opportunity to designate a missing person contact is offered annually, regardless of whether the student chose to

designate a contact person the previous year. If a student does not specify someone, then the emergency contact will be considered the contact for the purposes of these procedures. Students also will be informed that if they are younger than 18 years of age (and not emancipated) when they are determined to be missing the University is required to contact their custodial parent or guardian in addition to the contact person designated. A student's missing person contact will be registered confidentially; will be accessible only by authorized campus officials and law enforcement as appropriate; and may not be disclosed, except to law enforcement personnel in furtherance of a missing person investigation.

Investigating a Missing Student Report

Individuals reporting a missing student should immediately notify MUPD by calling (573) 882-7201. The appropriate Residence Hall Coordinator (RHC) or the University Student Apartments (USA) Office Manager will also be immediately notified.

MUPD is responsible for investigating reports of a missing student who resides in an On-Campus Student Housing and determining whether that student is missing. MUPD will work with the RHC or USA Office Manager for the facility where the student resides to gather information and attempt to locate the student.

If MUPD is unable to locate the student within 24 hours of receiving the report, the student will be determined missing. MUPD also may determine a student is missing before the student has been missing for a full 24 hours.

MUPD and Residential Life staff will gather as much information as possible from the concerned individual(s) in order to make a determination the student is missing.

Information that should be gathered if available includes:

- Details of why the person suspects or knows the individual is missing (may include changes to behavior, state of mind, known plans);
- The last place and time the individual was seen and by whom;
- Contact information for the individual suspected to be missing (cell and other phone numbers, e-mail addresses, social networking names);
- Contact information for friends who may know of their location;
- Contact information for the concerned individual(s) so they can be reached with additional questions or follow-up information.

Missing Student Notification Procedures:

Within 24 hours after determining that a student who resides in on-campus student housing is missing, MUPD will notify the missing student's Missing Student Contact Person or, if no Missing Student Contact Person has been designated, the missing student's emergency contact. If the missing student is under 18 years of age and not emancipated, notify a custodial parent or guardian. In addition, MU will notify the local law enforcement agency within 24 hours of the determination that the student is missing.

UNIVERSITY POLICIES GOVERNING ALCOHOL AND OTHER DRUGS

MUPD Officers enforce laws regulating the use of alcoholic beverages, underage possession of alcohol and illicit drugs. All MU students, employees and visitors are subject to enforcement of Missouri State Laws and City of Columbia Ordinances regarding the unlawful possession, use and sale of alcohol. All MU students, employees and visitors are subject to enforcement of Missouri State and Federal Laws regarding the unlawful possession, use and sale of illicit drugs. Violations of University of Missouri regulations can result in disciplinary action up to and including expulsion for students and termination for employees.

Alcohol Policy

University of Missouri regulations prohibit the unlawful possession, use, distribution, and sale of alcohol by students, employees and visitors on University-owned or controlled property and at University-sponsored or supervised activities.

The use or possession of any alcoholic beverage is prohibited on all University property, except in the President's residence and the Chancellors' residences, and the sale, use or possession may, by appropriate University approval be allowed in approved University Alumni Centers or Faculty Clubs or other designated facilities, and for single events and reoccurring similar events in designated conference, meeting, or dining facilities provided by University food services, subject to all legal requirements.

The President has been designated by the Board of Curators, as the person responsible for assuring compliance with state law. Authority has been delegated by the Board of Curators to the Chancellors for acting upon the requests to use alcoholic beverages on University property. Each Chancellor will designate a person who will be responsible on behalf of the campus to ensure compliance with state law.

All requests for use of alcoholic beverages on University property must be submitted to the Chancellor or designee at least seven days prior to the date of the intended use.

Any person under the age of twenty-one years, who purchases or attempts to purchase, or has in his or her possession, any intoxicating liquor as defined in section 311.020 or who is visibly in an intoxicated condition as defined in section 577.001, or has a detectable blood alcohol content of more than two-hundredths of one percent or more by weight of alcohol in such person's blood is guilty of a misdemeanor.

Parental Notification Policy

Students who are under the age of 21, unmarried, and financially dependent on their parent(s) may be subject to the [Parental Notification](#) exception to FERPA if they are found in violation of the Student Conduct Code as it relates to alcohol and drugs. This exception states that it is the belief of the University that students benefit from discussions with their parent(s) or legal guardian(s) about the effects of alcohol or use of controlled substances including the effect of the use of alcohol or controlled substances on their educational experience.

Drug Policy

University of Missouri regulations prohibit the unlawful possession, use, distribution and sale of illicit drugs by students, employees and visitors on University-owned or controlled property and at University-sponsored or supervised activities.

Each employee engaging in the performance of work supported by a federal grant or contract, as a condition of employment, must notify the University of any Criminal Drug Statue Conviction for a violation occurring in the workplace no later than five days after each conviction. The University must notify the contracting party within 10 days after receiving notice from the employee or otherwise receiving actual notice of such conviction.

DRUG AND ALCOHOL ABUSE EDUCATION PROGRAMS

Pursuant to the Drug-Free Schools and Communities Act Amendments of 1989 and the Drug-Free Workplace Act of 1988, the University of Missouri is required to establish a drug and alcohol prevention program for its students and employees. A biennial review of this program is completed to determine its effectiveness, to implement changes to the program if they are needed, and to ensure that the University's disciplinary sanctions described within are consistently enforced.

The Wellness Resource Center (WRC) uses a comprehensive, campus wide, year-long wellness approach that begins during summer orientation and continues every month throughout the year. Each year, over 200 student programs are delivered in a wide variety of locations including academic classrooms and residence halls. The WRC plans on-going activities and events that support wellness as it relates to issues such as alcohol, tobacco and other drug use, nutrition and fitness, stress and mental health and other wellness issues.

MU offers education and information to employees and students about the dangers of drug and alcohol abuse in the workplace. Programs address unlawful controlled substance and alcohol use, including personnel actions that may result from such violations; and self-referrals as well as supervisory referrals to drug and alcohol counseling and rehabilitation programs. Counseling and assistance is available through the University's Employee Assistance Program and/or community agencies. Such referrals will respect individual confidentiality.

AlcoholEdu. A required, interactive, educational experience for new in-coming students providing insight on issues commonly faced in college. This online course values health and safety, providing a commitment to educating and encouraging students to make good choices.

“Most of Us” campaign is a social norming part of MU’s harm-reduction approach to alcohol, drug and tobacco use among MU college students. The Wellness Resource Center hopes that sharing the truth of actual campus behavior will help MU students make decisions that are health, safe and smart.

BASICS program for Alcohol and Marijuana Policy Offenses. Brief Alcohol Screening and Intervention for College Students. The goal of the program is to reduce risky behaviors and harmful consequences of alcohol abuse.

STAR – Strategies Targeting Alcohol Responsibility. An individually tailored skills program designed to help students drink more responsibility and reduce the risk of negative consequences when they drink.

ANNUAL DISCLOSURE OF CRIME STATISTICS

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC § 1092(f)) requires colleges and universities across the United States to disclose information about crime on and around their campuses. The University Police maintains a close relationship with all police departments where MU owns or control property. This ensures that crimes reported directly to these police departments that involve the University are brought to the attention of the University Police.

The University Police collects the crime statistics disclosed in the charts through a number of methods. Police communications and officers enter all reports of crime incidents made directly to the department through an integrated computer aided-dispatch records management system. After an officer enters the report in the system, a department administrator reviews the report to ensure it is appropriately classified in the correct crime category. The Department periodically examines the data to ensure that all reported crimes are recorded in accordance with the crime definitions outlined in the FBI Uniform Crime Reporting Handbook and the FBI National Incident-Based Reporting System Handbook (sex offenses only). In addition to the crime data that the University Police maintains, the statistics below also include crimes that are reported to various campus security authorities, as defined in this report. The statistics reported here generally reflect the number of criminal incidents reported to the various authorities. The statistics reported for the sub categories on liquor laws, drug laws and weapons offenses

represented the number of people arrested or referred to campus judicial authorities for respective violations, not the number of offenses documented.

****Note: Student Housing Crime Statistics are a subset of the On Campus Category, i.e. they are counted in both categories.***

*****All incidents that meet the Clery definition of “dating violence” are counted as domestic violence per Missouri law and Clery Act definitions.***

*****These crime statistics reflect a three’ year MUPD assessment of all police reports as well as incidents reported through the Office of Civil Rights and Title IX. Therefore, changes are reflected in the offenses of sexual assault, domestic violence, dating violence and stalking. Additionally, with the separate campuses per the Department of Education guidelines, several incidents were removed from the main campus statistics and are reflected within the Women’s and Children’s Separate Campus charts. No changes were made in hate crimes.***

The Department of Education along with the Clery Act and HEA requirements identify a “separate campus” if it meets the following criteria:

- ***University of Missouri owns or controls the site;***
- ***It is not reasonably geographically contiguous with the main campus;***
- ***It has an organized program of study; and***
- ***There is at least one person on site acting in an administrative capacity.***

Examples include, South Farms, Women’s and Children’s Hospital and some research facilities.

TIMELY WARNING – CRIME ALERTS & EMERGENCY NOTIFICATION

Crime Alerts are generally issued via email. All campus community members who have a valid email address issued by the University of Missouri – Columbia will be designated through the University's email system to receive the Crime Alert. The MU Alert text messaging system is an emergency notification system available to students and staff at MU that "opted in" to the emergency alert system. Alerts sent are simulcast to the University community via our [MU Alert](#), the University Facebook page, MUPD Twitter, e-mail accounts and cell phone text. At this time, MU students and employees at Baskett Wildlife receive the same timely warning – crime alerts and emergency notifications as the main campus providing they have a valid MU email address and have "opted-in" to the MU Alert system.

SECURITY OF AND ACCESS TO CAMPUS FACILITIES

Baskett Wildlife Research and Education Center's normal business hours are 8-5 Monday-Friday during the summer months (May – August) and periodically during other months. Several buildings at BWREC, including the shop, office, and research buildings remain locked throughout the day. There are no electronic locks for any buildings. Locked gates prevent access to side roads, and the Shelton Road gate is locked at all times. A security fence runs through the MOFLUX tower research site, and no trespassing signs are located throughout the property at sensitive research locations.

DEFINITIONS OF REPORTABLE CRIMES, SECURITY PROGRAMS, DISCIPLINARY PROCEDURES

The same definition of reportable crimes for the main campus, equally apply to Baskett Wildlife. Due to the location, programs designed to prevent sexual assault, dating violence, domestic violence and stalking that are available at the main campus are not readily available to students and employees. All students are required to complete the "Not Anymore" program to help prevent sexual violence. Students and employees at Baskett Wildlife are encouraged to be responsible for their own security and the security of others. Procedures for institutional disciplinary actions in cases of dating violence, domestic violence and stalking equally apply as they do on the main campus.

REPORTING AN INCIDENT OF SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE OR STALKING

To file a report, students, employees and visitors are encouraged to contact the Boone County Sheriff's Department. Students and employees at Baskett Wildlife may also file a report with The Office for Civil Rights & Title IX. The victim will be contacted by The Office for Civil Rights & Title IX, offered available resources and investigated remotely.

ANNUAL FIRE SAFETY REPORT

The Higher Education Opportunity Act enacted on August 14, 2008, requires institutions that maintain on-campus student housing facilities to publish an annual fire safety report that contains information about campus fire safety practices and standards of the institution. The following report details all information required by this act for MU.

DEFINITIONS FROM THE HIGHER EDUCATION OPPORTUNITY ACT

On-Campus Student Housing – A student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within a reasonable contiguous area that makes up the campus.

Fire – Any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

FIRE SAFETY

The University of Missouri has adopted numerous policies to promote a safe living and working environment at all University locations.

The full text of Residential Life policies as well as other important fire safety information is available in the [Residence Hall Rules & Regulations](#) and in [the University Student Apartment Rules and Regulations](#).

ELECTRICAL APPLIANCES USAGE

In the residence halls residents' use or possession of appliances and electronics is restricted by the type, size and number permitted. It is recommended that surge strips/protectors with a 15-amp circuit breaker and safety reset switch are used for appliances and electronics. Permitted appliances and electronics include one compact (4.5 cubic feet or smaller) refrigerator in each bedroom, one microwave (under 1000 watts) in each bedroom, halogen lamps (bulbs of 300 watts or less and protective wire or glass cover) toasters, coffee makers, hot pots, rice steamers and air popcorn poppers. Items that are not permitted include any items with exposed flames or embers, exposed heating elements or present other fire hazards. These prohibited items include but are not limited to space heaters, toaster ovens and George Foreman grills. In the University Student Apartments and some other University operated apartments additional appliances are permitted (please consult the Residence Rules & Regulations and University Student Apartment Rules and Regulations for additional information).

SMOKE-FREE RESIDENCE AREAS

In recognition of the health, safety and comfort benefits of smoke-free air and the responsibility to provide and maintain an optimally healthy and safe working and living environment for faculty, students, staff and visitors, the University of Missouri is smoke-free as of July 1, 2013.

No smoking is permitted on any university property, in any university-owned buildings or in university-leased buildings or vehicles, including Residential Life Housing. Use of products including, but not limited to, cigarettes, cigars, e-cigarettes, hookahs, pipes and water pipes are prohibited. Safe storage of such products is permitted, provided the product is not used on University-owned or -operated property.

OPEN FLAME AND FLAMMABLE MATERIALS

Candles (with or without wicks), incense, oil lamps, oil/wax diffusers that sit on lightbulbs or other items with the capability of an open flame or burning ember are not permitted in any residence hall and are subject to confiscation and forfeiture. Residents are allowed to use UL-approved electric or battery-operated candle products. Examples

include, but are not limited to, Scentsy and Scentbug products and battery-operated pillar candles. Incense oils must be enclosed. Reed diffusers in open bottles are not allowed because they ruin furniture and leave a permanent scent. The use, possession, display or ignition of fireworks or any type of explosive device is prohibited on University property

Tampering with or theft of fire safety equipment, including tampering with or discharging fire extinguishers, disabling bells/horns, activating a fire alarm when no emergency exists or covering or removing the batteries from individual smoke detectors, removing the entire smoke detector apparatus, or tampering with, hanging objects from, or decorating sprinkler heads in rooms of halls that are thus equipped are prohibited.

RESIDENCE HALL FIRE DRILLS

In 2016 fire drills were conducted twice in each residence hall, including Manor House, Tara and University Heights apartment. The 2016 Fire Amenities graph indicates each Residence Hall by name and the number of fire drills. Fire drills provide residents the opportunity to become familiar with the notification system as well as the evacuation procedures. During the drill and any other time that the fire alarm sounds residents should calmly evacuate the building and follow the instructions of staff and emergency personnel. Failure to vacate or in any other way interfere with the emergency response process will be considered a violation of Residential Life policy and handled accordingly.

Students who require any type of accommodation to ensure their safe evacuation should contact the Residence Hall Coordinator or the Office Manager at University Student Apartments immediately upon moving into the facility so that the appropriate arrangements can be made.

FIRE SAFETY EQUIPMENT

All Residential Life facilities are equipped with notification systems that can be initiated by the presence of smoke, heat or via a manual pull station. The initiation of the alarm notifies residents audibly and visually. With the exception of the Tara and University Heights complexes any initiation of the fire alarm notifies an off-site response center that dispatches emergency responders to the location. During the 2015-2016 academic year ninety-one percent (91%) of the Residential Life owned residence halls are equipped with sprinkler systems. For the 2016-2017 academic year one hundred percent (100%) of the Residential Life owned residence halls are equipped with sprinkler systems and all facilities will be equipped by 2020. All Residential Life facilities have fire extinguishers in compliance with the applicable code.

Fire Safety Education and Training Programs for Students, Faculty and Staff

Everyone at MU is responsible for fire safety. EHS works closely with the Columbia Fire Department, Campus Facilities and campus departments to provide comprehensive fire prevention services to campus. These services include: building inspections, maintenance of fire suppression systems, fire extinguisher training, and promotional activities such as "Fire Factor." Environmental Health and safety offers a Fire Extinguisher Use and Safety class made up of lecture and hands on opportunities. Students participate in extinguishing fires after having learned about fire prevention and the proper use of fire extinguishers. Classes of fires, along with the types of fire extinguishers available, deciding which extinguisher to use, when to fight a fire with an extinguisher, and how to properly use an extinguisher are covered in this class.

Contact [EHS](#) if you have any questions or desire consultative assistance about fire safety, the use of open flames and other fire related questions.

On-Campus Student Housing

Fire safety and education occurs throughout the academic year with various programs such as fire drills and annual "Fire Factor" fire safety event. Residential Life teams with the Columbia Fire Department and Department of Student Life to provide students with an opportunity to see a real fire in action through room burns. This gives students a real concept of how quickly a fire can go from a tiny flame to a full-fledged fire (about 90 seconds).

Plans for Future Improvements in Fire Safety

The University of Missouri continually evaluates our fire safety program as well as our fire protection systems. MU makes upgrades based on need and funding. We continue to develop and conduct fire safety training programs as needed to ensure the safety of our students, faculty and staff.

For the 2016-2017 academic year one hundred percent (100%) of the Residential Life owned residence halls are equipped with sprinkler systems and all facilities will be equipped by 2020.

Procedures for Student Housing Evacuation

In Case of Fire

In case of a fire, for your safety and the safety of others, get out as quickly as possible, and leave the firefighting to the professionals. All residents and guests must evacuate when building fire alarm systems sound. When a fire alarm sounds, all occupants must immediately vacate the building via the suggested evacuation routes and go to the designated location. Students should familiarize themselves with the exits in the building and if there is a specific stairwell assigned for evacuation of their residence hall room, they should use that exit. Never use the elevators – always take the stairs. Students who fail to vacate the building when an alarm sounds endanger the safety of themselves and others and will face conduct action.

What to do in case of fire

When the fire alarm sounds, you must evacuate the facility. Never assume it is a drill or false alarm; treat each alarm as the real thing.

Feel your door knob before opening it.

If the knob is hot, do not open the door.

If the knob is not hot, brace yourself against the door and open it slightly.

If heat or heavy smoke is present in the corridor, close the door and stay in the room. Keep low to the floor if smoke is present.

If you CAN leave the room

Wear shoes; if possible, carry wet towels.

Close all doors behind you to reduce the spread of smoke.

If you are in another part of the building, do not return to your room.

Go to the nearest exit or stairway. NEVER USE AN ELEVATOR. If the nearest exit is blocked, use an alternate route. If all exits are blocked, go back to your room and close the door. Follow the procedures described below.

Never re-enter the building until staff indicates it is safe to do so.

If you CANNOT leave the room

If possible, open the window at the top and the bottom to let out smoke and let in fresh air.

Do not break the glass. Smoke and fumes may be drawn in through the windows. You must be able to close the window if necessary.

CALL 911, shout for help. Seal cracks around the door with towels or bed linens to keep out smoke. Stay near the floor when possible.

Hang a sheet, jacket, shirt or other object in or outside the window to attract attention.

If you discover a fire, do not endanger yourself

Pull the nearest alarm box.

Shout a warning. Repeat it.

Leave the building and CALL 911, even if a small fire has been quickly extinguished.

Close all doors, especially those leading into stairwells, which should never be left open.

Move at least 200 feet away from the building. Keep clear of driveways, sidewalks and access pathways.

EVACUATION ROUTES AND ASSEMBLY POINTS

EVACUATION SHOULD BE THE RESIDENT'S ONLY CONCERN

All residents must remain calm, move quickly (no running) and remain out of the way of emergency personnel and associated equipment. When exiting the building and proceeding to the pre-planned assembly area, remain at least twenty feet away from the building walls and overhangs.

Facility Evacuation Routes

Residential Life is responsible for reviewing designated evacuation routes and assembly points with residents at the start of each semester. Students should be aware of all alternative routes in the event the primary routes are blocked.
